

## AXL (Phospho Tyr697) rabbit pAb

Catalog No :	YP1605
Reactivity :	Human;Mouse;Rat
Applications :	WB;ELISA
Target :	AXL
Fields :	>>EGFR tyrosine kinase inhibitor resistance
Gene Name :	AXL UFO
Protein Name :	AXL (Phospho Tyr697)
Human Gene Id :	558
Human Swiss Prot No :	P30530
Mouse Gene Id :	26362
Mouse Swiss Prot	Q00993
No : Immunogen :	Synthesized peptide derived from human AXL (Phospho Tyr697)
Specificity :	This antibody detects endogenous levels of Human,Mouse,Rat AXL (Phospho Tyr697)
Formulation :	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source :	Polyclonal, Rabbit,IgG
Dilution :	WB 1:1000-2000 ELISA 1:5000-20000
Purification :	The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen.
Concentration :	1 mg/ml

Best Tools for immunology Research		
Storage Stability :	-15°C to -25°C/1 year(Do not lower than -25°C)	
Observed Band :	130kD	
Background :	The protein encoded by this gene is a member of the Tyro3-Axl-Mer (TAM) receptor tyrosine kinase subfamily. The encoded protein possesses an extracellular domain which is composed of two immunoglobulin-like motifs at the N-terminal, followed by two fibronectin type-III motifs. It transduces signals from the extracellular matrix into the cytoplasm by binding to the vitamin K-dependent protein growth arrest-specific 6 (Gas6). This gene may be involved in several cellular functions including growth, migration, aggregation and anti-inflammation in multiple cell types. Alternative splicing results in multiple transcript variants of this gene. [provided by RefSeq, Jul 2013],	
Function :	catalytic activity:ATP + a [protein]-L-tyrosine = ADP + a [protein]-L-tyrosine phosphate.,disease:Has transforming potential in patients with chronic myeloproliferative disorder or chronic myelocytic leukemia.,function:May function as a signal transducer between specific cell types of mesodermal origin. In case of filovirus infection, seems to function as a cell entry factor.,similarity:Belongs to the protein kinase superfamily. Tyr protein kinase family. AXL/UFO subfamily.,similarity:Contains 1 protein kinase domain.,similarity:Contains 2 fibronectin type-III domains.,similarity:Contains 2 Ig-like C2-type (immunoglobulin- like) domains.,subunit:Heterodimer and heterotetramer with GAS6.,tissue specificity:Highly expressed in metastatic colon tumors. Expressed in primary colon tumors. Weakly expressed in normal colon tissue.,	
Subcellular Location :	Cell membrane ; Single-pass type I membrane protein .	
Expression :	Highly expressed in metastatic colon tumors. Expressed in primary colon tumors. Weakly expressed in normal colon tissue.	
Sort :	2533	
No4 :	1	
Host :	Rabbit	
Modifications :	Phospho
