

MAP-2 Monoclonal Antibody

Catalog No: YM1061

Reactivity: Human; Mouse; Rat; Bovine; Pig

Applications: WB;IF

Target: MAP-2

Gene Name: MAP2

Protein Name: Microtubule-associated protein 2

Human Gene Id: 4133

Human Swiss Prot P11137

No:

Mouse Swiss Prot

No:

Rat Swiss Prot No: P15146

Immunogen: Purified recombinant human MAP-2 (N-terminus) protein fragments expressed

in E.coli.

P20357

Specificity: MAP-2 Monoclonal Antibody detects endogenous levels of MAP-2 protein.

Formulation : Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Source: Monoclonal, Mouse

Dilution: WB 1:1000 - 1:2000. IF 1:100 - 1:500. Not yet tested in other applications.

Purification: Affinity purification

Concentration: 1 mg/ml

Storage Stability: -15°C to -25°C/1 year(Do not lower than -25°C)

1/3

Molecularweight: 200kD

Background: This gene encodes a protein that belongs to the microtubule-associated protein

family. The proteins of this family are thought to be involved in microtubule assembly, which is an essential step in neurogenesis. The products of similar genes in rat and mouse are neuron-specific cytoskeletal proteins that are enriched in dentrites, implicating a role in determining and stabilizing dentritic shape during neuron development. A number of alternatively spliced variants encoding distinct isoforms have been described. [provided by RefSeq, Jan 2010],

Function : alternative products:Additional isoforms seem to exist,function:The exact

function of MAP2 is unknown but MAPs may stabilize the microtubules against

depolymerization. They also seem to have a stiffening effect on

microtubules., PTM: MAP2A/c is phosphorylated. Phosphorylated upon DNA

damage, probably by ATM or ATR., similarity: Contains 3 Tau/MAP

repeats., similarity: Contains 4 Tau/MAP repeats.,

Subcellular Location :

Cytoplasm, cytoskeleton . Cell projection, dendrite .

Expression: Brain, Brain cortex, Epithelium, Pancreas, Testis,

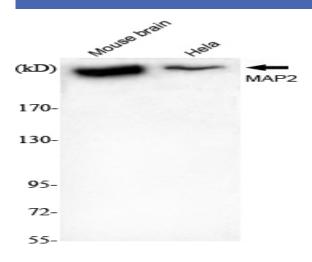

Sort:

No4: 1

Host: Mouse

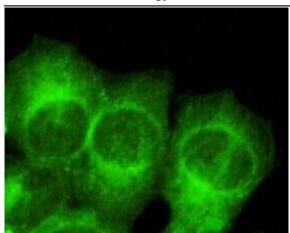

Modifications: Unmodified
