

SENP1 Polyclonal Antibody

Catalog No :	YT4236
Reactivity :	Human;Mouse
Applications :	WB;IHC;IF;ELISA
Target :	SENP1
Gene Name :	SENP1
Protein Name :	Sentrin-specific protease 1
Human Gene Id :	29843
Human Swiss Prot No :	Q9P0U3
Mouse Gene Id :	223870
Mouse Swiss Prot No :	P59110
Immunogen :	The antiserum was produced against synthesized peptide derived from human SENP1. AA range:1-50
Specificity :	SENP1 Polyclonal Antibody detects endogenous levels of SENP1 protein.
Formulation :	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source :	Polyclonal, Rabbit,IgG
Dilution :	WB 1:500 - 1:2000. IHC 1:100 - 1:300. ELISA: 1:20000.. IF 1:50-200
Purification :	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Concentration :	1 mg/ml
Storage Stability :	-15°C to -25°C/1 year(Do not lower than -25°C)

Observed Band : 73kD

Background : This gene encodes a cysteine protease that specifically targets members of the small ubiquitin-like modifier (SUMO) protein family. This protease regulates SUMO pathways by deconjugating sumoylated proteins. This protease also functions to process the precursor SUMO proteins into their mature form. Alternate splicing results in multiple transcript variants. [provided by RefSeq, Jun 2012],

Function : function:Protease that catalyzes two essential functions in the SUMO pathway: processing of full-length SUMO1, SUMO2 and SUMO3 to their mature forms and deconjugation of SUMO1, SUMO2 and SUMO3 from targeted proteins. Deconjugates SUMO1 from HIPK2. Deconjugates SUMO1 from HDAC1, which decreases its transcriptional repression activity.,similarity:Belongs to the peptidase C48 family.,subcellular location:Shuttles between cytoplasm and nucleus.,tissue specificity:Highly expressed in testis. Expressed at lower levels in thymus, pancreas, spleen, liver, ovary and small intestine.,

Subcellular Location : Nucleus . Cytoplasm. Shuttles between cytoplasm and nucleus.

Expression : Highly expressed in testis. Expressed at lower levels in thymus, pancreas, spleen, liver, ovary and small intestine.
