

## NPPL2 rabbit pAb

|                               |                                                                                                                       |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No :</b>           | YT7592                                                                                                                |
| <b>Reactivity :</b>           | Human                                                                                                                 |
| <b>Applications :</b>         | WB                                                                                                                    |
| <b>Target :</b>               | NPPL2                                                                                                                 |
| <b>Gene Name :</b>            | NPIPL2                                                                                                                |
| <b>Protein Name :</b>         | NPPL2                                                                                                                 |
| <b>Human Swiss Prot No :</b>  | A6NHN6                                                                                                                |
| <b>Immunogen :</b>            | Synthesized peptide derived from human NPPL2 AA range: 312-362                                                        |
| <b>Specificity :</b>          | This antibody detects endogenous levels of NPPL2 at Human                                                             |
| <b>Formulation :</b>          | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| <b>Source :</b>               | Polyclonal, Rabbit,IgG                                                                                                |
| <b>Dilution :</b>             | WB 1:500-2000                                                                                                         |
| <b>Purification :</b>         | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Concentration :</b>        | 1 mg/ml                                                                                                               |
| <b>Storage Stability :</b>    | -15°C to -25°C/1 year(Do not lower than -25°C)                                                                        |
| <b>Molecularweight :</b>      | 49kD                                                                                                                  |
| <b>Subcellular Location :</b> | Secreted .                                                                                                            |
