

## TUTLA rabbit pAb

|                               |                                                                                                                       |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No :</b>           | YT8126                                                                                                                |
| <b>Reactivity :</b>           | Human;Mouse;Rat                                                                                                       |
| <b>Applications :</b>         | IHC;WB                                                                                                                |
| <b>Target :</b>               | IGSF9;IGSF9A;                                                                                                         |
| <b>Gene Name :</b>            | IGSF9;IGSF9A; KIAA1355; NRT1                                                                                          |
| <b>Protein Name :</b>         | Protein turtle homolog A;Immunoglobulin superfamily member 9A (IgSF9A)                                                |
| <b>Human Swiss Prot No :</b>  | Q9P2J2                                                                                                                |
| <b>Immunogen :</b>            | Synthesized peptide derived from human C-terminal TUTLA                                                               |
| <b>Specificity :</b>          | This antibody detects endogenous levels of TUTLA at Human, Mouse,Rat                                                  |
| <b>Formulation :</b>          | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                        |
| <b>Source :</b>               | Polyclonal, Rabbit,IgG                                                                                                |
| <b>Dilution :</b>             | WB 1:500-2000 IHC 1:50-200                                                                                            |
| <b>Purification :</b>         | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Concentration :</b>        | 1 mg/ml                                                                                                               |
| <b>Storage Stability :</b>    | -15°C to -25°C/1 year(Do not lower than -25°C)                                                                        |
| <b>Observed Band :</b>        | 130kD                                                                                                                 |
| <b>Subcellular Location :</b> | #N/A                                                                                                                  |
| <b>Expression :</b>           | #N/A                                                                                                                  |
