

TSSK6 rabbit pAb

Catalog No: YT8050

Reactivity: Human; Mouse; Rat

Applications: WB

Target: TSSK6

Gene Name: TSSK6 SSTK FKSG82

Q9BXA6

Q925K9

Protein Name: TSSK6

Human Gene Id: 83983

Human Swiss Prot

No:

Mouse Gene Id: 83984

Mouse Swiss Prot

No:

Immunogen: Synthesized peptide derived from human TSSK6

Specificity: This antibody detects endogenous levels of TSSK6 at Human, Mouse, Rat

Formulation: Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.

Source: Polyclonal, Rabbit, IgG

Dilution: WB 1:500-2000

Purification: The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Concentration: 1 mg/ml

Storage Stability: -15°C to -25°C/1 year(Do not lower than -25°C)

1/2

Molecularweight: 33kD

Background: This intronless gene encodes a member of the CAMK (calcium/calmodulin-

dependent) serine/threonine protein kinase family. The encoded kinase has a broad expression pattern but is described as testis-specific due to effects on fertility. Male mice which lack the gene encoding a highly similar protein are sterile

and have morphologically abnormal sperm. [provided by RefSeq, Jan 2012],

Function: catalytic activity:ATP + a protein = ADP + a

phosphoprotein.,cofactor:Magnesium.,function:Required for sperm production and function. Plays a role in DNA condensation during postmeiotic chromatin remodeling.,PTM:Autophosphorylated.,similarity:Belongs to the protein kinase superfamily. CAMK Ser/Thr protein kinase family.,similarity:Contains 1 protein kinase domain.,subunit:Interacts with the heatshock proteins HSPCB, HSPA8 and HAPA1A. These interactions appear to be required for TSSK6 kinase activity.,tissue specificity:Highly expressed in testis. Expressed at lower levels in human colon, small intestine, ovary, prostate, thymus, spleen and peripheral

blood leukocytes.,

Subcellular Location:

nucleus, cytoplasm,

Expression: Highly expressed in testis. Expressed at lower levels in colon, small intestine,

ovary, prostate, thymus, spleen and peripheral blood leukocytes.
