

## Recombinant Human HSPA1A protein ,C- His Tag

|                               |                                                                                                                                                                             |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No :</b>           | YD2250                                                                                                                                                                      |
| <b>Reactivity :</b>           | Human                                                                                                                                                                       |
| <b>Purity :</b>               | >90% as determined by SDS-PAGE                                                                                                                                              |
| <b>In Vivo :</b>              | Please contact with the lab for this information.                                                                                                                           |
| <b>Sequence :</b>             | A DNA sequence encoding the human HSPA1A(Met1~Asp641) was fused with the C-terminal His Tag                                                                                 |
| <b>Human Swiss Prot No :</b>  | P0DMV8                                                                                                                                                                      |
| <b>Formulation :</b>          | Supplied as solution form in 50 mM Tris-HCl pH 7.5, 150 mM NaCl./ Lyophilized from 50 mM Tris-HCl pH 7.5, 150 mM NaCl.                                                      |
| <b>Source :</b>               | E.coli                                                                                                                                                                      |
| <b>Dilution :</b>             | Reconstitute in sterile water for a stock solution                                                                                                                          |
| <b>Concentration :</b>        | >90% as determined by SDS-PAGE                                                                                                                                              |
| <b>Storage Stability :</b>    | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 °C for one week . Store at -20 to -80 °C for twelve months from the date of receipt.    |
| <b>Subcellular Location :</b> | Cytoplasm . Nucleus . Cytoplasm, cytoskeleton, microtubule organizing center, centrosome . Secreted . Localized in cytoplasmic mRNP granules containing untranslated mRNAs. |
