

Nb8-24

Catalog No :	MY5245
Reactivity :	None
Applications :	Standard dilution
Purity :	0.9999
Formulation :	1xPBS pH7.42 at 4.0 °C
Dilution :	20X by dd H2O
Storage Stability :	2-8 °C
Function :	This reagent is constructed from ultra-pure raw materials and is typically used as a negative control for standards in mass spectrometry.
