**Applications** 

• IF,WB,IHC,ELISA

# **Ub Rabbit pAb**

CatalogNo: YT5541

## **Key Features**

Host Species Reactivity

Rabbit
 Human, Mouse, Rat

W Isotype

• 80kD,50kD (Observed) • IgG

#### **Recommended Dilution Ratios**

IF 1:50-200

WB 1:500-1:2000 IHC: 1:100-1:300 ELISA 1:10000

Not yet tested in other applications

#### Storage

**Storage\*** -15°C to -25°C/1 year(Do not lower than -25°C)

**Formulation** 1 mg/ml

#### **Basic Information**

**Clonality** Polyclonal

## Immunogen Information

**Immunogen** Synthesized peptide derived from the N-terminal region of human Ub.

**Specificity** Ub Polyclonal Antibody detects endogenous levels of Ub protein.

## | Target Information

Gene name UBA52/RPS27A/UBB/UBC

**Protein Name** Ubiquitin

Organism Gene ID UniProt ID

Human <u>7311;</u> <u>P62987; P62979; P0CG47; P0CG48;</u>

Cellular Localization [Ubiquitin]: Cytoplasm . Nucleus .; [60S ribosomal protein L40]: Cytoplasm .

Tissue specificity Brain, Epithelium, Fetal brain cortex, Liver, L

**Function** Function:Protein modifier which can be covalently attached to target lysines either as a

monomer or as a lysine-linked polymer. Attachment to proteins as a Lys-48-linked polymer usually leads to their degradation by proteasome. Attachment to proteins as a monomer or as an alternatively linked polymer does not lead to proteasomal degradation and may be required for numerous functions, including maintenance of chromatin structure, regulation

of gene expression, stress response, ribosome biogenesis and DNA

repair.,miscellaneous:This ribosomal protein is synthesized as a C-terminal extension protein (CEP) of ubiquitin.,miscellaneous:Ubiquitin is synthesized as a polyubiquitin precursor with exact head to tail repeats, the number of repeats differ between species and strains. In some species there is a final amino-acid after the last repeat, here in human a Val. Some ubiquitin genes contain a single copy of ubiquitin fused to a ribosomal protein (either L40 or S27a).,PTM:Several types of polymeric chains can be formed, depending on the lysine used for the assembly, similarity:Belongs to the ribosomal protein L40e

family., similarity: Belongs to the ribosomal protein S27Ae family., similarity: Belongs to the

ubiquitin family.,
