

Multiplex Immunohistochemical Kits

mIHC Multiplex Fluorescence/Multicolor Detection

- Flexible target combinations without restriction to primary antibody species origin
- Vividly depict cellular composition, spatial arrangement, and multidimensional analysis
- Empowered by TSA Dual Signal Amplification
- Elevate your research to publish impactful articles

Product List

Product Number	Product Name	Specification
RS0035	Triple-Fluorescence immunohistochemical mouse/rabbit kit	1ml/2ml/5ml
RS0036	Double-Fluorescence immunohistochemical mouse/rabbit kit	1ml/2ml/5ml
RS0037	Quadruple-Fluorescence immunohistochemical mouse/rabbit kit	1ml/2ml/5ml
RS0038	Pentuple-Fluorescence immunohistochemical mouse/rabbit kit	1ml/2ml/5ml
RS0039	Sextuple-Fluorescence immunohistochemical mouse/rabbit kit	1ml/2ml/5ml
